Hi Da Thao

For this particular unit, the Blackboard Collaborate Ultra link is on an adaptive release within each week's learning content folder which is accessible to only students located overseas. Recordings are also accessible through this link.

Please see the attached instructions and I hope she can access without any further issue.

Should you have any further questions, please feel free to contact us.

Thank you

Kind regards
Kahori

Dear Pham & Ngoc

As per the below instructions from the unit coordinator, the link for this unit is located within the eContent folder.

Regards

Emma

Hi Emma,

I have just gone in to resync the groups. There is no left-hand side access link to BBCU. The link is only visible to students located overseas within the eContent folder. This should now be visible to the student now that I have complete the resync.

Many thanks,

Mrs Cristina Bowers

Dear Da Thao

You should be able to find the links to the classes under the Collaborate Ultra tab in the unit Blackboard site. You may find that the links to the classes are greyed out until just before they actually commence.

Would you please check if the student has access to the Blackboard Collaborate Ultra below in the unit Blackboard?

Thank you

Kind regards
Kahori

Good afternoon Pham,

I have just spoken with the College administration team and they have confirmed with me that your student is not required to do anything further regarding enrolment. Everything is ok.

Our administration team are processing students now, and ensuring they are enrolled on our end and given timetable access. Your student will receive timetable access shortly.

Thank you, please don't worry – everything is ok in our system for your student NGUYEN, Ngoc Thien An.

Regards,
Esther

Hi All

Miss Nguyen has now been allocated to classes. A screen shot of the timetable is below. I encourage the student to view the live version of the timetable on eStudent as minor changes can occur in the first two weeks.

If you have any questions, please let me know.
